The **mission** of the Office of Research Integrity and Compliance is to advance research integrity and compliance through developing, demonstrating, and disseminating innovative processes, tools and outreach that improve scientific outcomes, transparency and accountability through the translational research continuum.

Services for U :

Research Ethics Consults

Need advice on a research project? Need help with a research problem? Confidential, informal one hour research consults available.

Self-Assessment Tools

Do you want to make sure you are following proper research protocol? Are you going to have an audit and want to make sure you are ready? We have tools to help you.

Research Misconduct and other Research Misbehaviors

Need to make a *confidential* report about research misconduct or other research misbehaviors, please contact us. "What would U do?" "See something, say something"

E3 Series

Discussions linked to current issues for research conduct.

Responsible Conduct of Research

Responsible conduct of research (RCR) is more than just completing CITI or GCP training. In-person training is also needed for graduate students, staff and faculty.

Institutional Conflict of Interest

When the institution or an institutional official has a financial interest, equity, or receives gifts or any type of payment, you need to disclose. Transparency maintains public trust.
