

Fall 2023 Newsletter

Greetings Colleagues

Welcome to Fall Semester 2023! The Office of Research Education is excited to offer a diversity of professional development classes to the University of Utah community.

Whether you are seasoned investigator or new to research, please take a moment to review our offerings. Here you will find cutting edge content on research mentoring, responsible and ethical conduct of research, and grant writing. We are also excited to offer for the first time our RED University of Utah research crossword puzzle on page 4.

If you have suggestions for future research education classes, please let us know.

We look forward to working with you all this year!

Jesse Morris, PhD

We would like to remind all researchers that the University has renewed the campus-wide license for LabArchives, a powerful and user-friendly electronic laboratory notebook system. LabArchives offers a secure platform to document experiments, store research data, and collaborate effectively, enhancing research efficiency and knowledge exchange within your department. In addition, we've now upgraded this service to include modules to help manage inventory and lab-based classes.

Further information about LabArchives, including a step-by-step tour of the system, best practices, and support information is available at <https://campusguides.lib.utah.edu/labarchives>.

Now is a great time to streamline your research activities, improve collaboration, and ensure the protect your valuable data.
