

The Impact of NIH Funding

All New Drugs Originate from NIH
From 2010-2019, 354/356 FDA approved drugs trace their origins to NIH funding.

01

*The drug lenacapavir was created with NIH funding at the UU

NIH Creates Patents

For every \$100 million of funding, NIH-supported research generates 76 patents.

03

*23 patents in 2024 for UU

NIH Funds Trials

As many as three-quarters of Phase I clinical trials occur at academic medical centers.

02

*The U of U had 553 open clinical trials in 2024.

NIH Drives Innovation

NIH fundamental research has led to 153 Nobel Prizes.

04

*NIH funding brought a Nobel Prize to the UU

NIH Saves Lives

Since 1991, cancer deaths have declined 33%. Since 1999, heart attack deaths have declined by 56%. NIH research was a driving force behind both.

05

*NIH funded research has saved thousands of Utahns

NIH Trains Doctors

NIH-supported academic research centers and universities support training of 29,000 MDs per year crucial for health of Americans and for the private sector.

06

*112 MDs graduated from UU in 2024

BEST ROI in Govt Spending

Every \$1 of NIH funding generated approximately \$2.46 of economic activity. This ROI is probably closer to 10-fold long-term.

07

*NIH funding at UU has the highest ROI in the state
